Re: April Quarterly Filing – Electronic Filing Password

To whom it may concern,

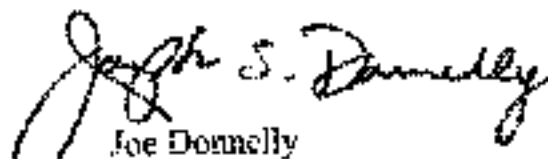

My campaign, Joe Donnelly for Congress, FEC#C003993652, has made every effort to comply with the regulations requiring us to electronically file. We understand that in order to fully comply, we must receive a password from your Commission. As of the filing date, we have not received such password.

The campaign has made every effort to obtain the necessary password including numerous phone calls to our Specialist and the Electronic Filing Department. Furthermore, a fax, signed by both our treasurer and our assistant treasurer, was sent to the appropriate number requesting the password for filing. All efforts were made prior to the filing deadline and well in advance of the 5PM close of business hours in my district. Unfortunately, we were not able secure the password required to file online prior to the deadline.

So, in order to show a good faith effort to comply with the reporting deadline, my campaign has faxed our quarterly report to your office, we have FedEx'd a copy of our report to your office, and we continue to hope we will receive the password from your office prior to the filing deadline at midnight so we can file our report online.

Please contact my assistant treasurer, Marty Mooradian, at 574-286-3620, with any questions. Thank you for your time and understanding.

Sincerely,

Joe Donnelly
Candidate for Congress, IN2
